Challenges in e-learning

Skills verification & showcasing

With the abundance of learning options comes a new challenge: tracking and recording progress. It's difficult to keep track of the many courses, certifications, and skill-building experiences that shape our expertise.

The concept of

Micro-credentialing

A framework for delivering competency-based qualifications that are shorter than a comprehensive certification.

Also known as **micro-degrees** or **nanodegrees**, they are often on-demand online courses that can be completed in your own time and provide certification upon completion.

The concept of

Micro- credentialing

“A micro-credential is a certification of assessed learning that is additional, alternate, complementary to or a formal component of a formal qualification” (Oliver, 2019, p.19).

The concept of

Micro- credentialing

Digital badges

A verifiable representation of an award, accomplishment, or skill acquisition.

can be earned in a wide variety of environments and are used by individuals to showcase their competencies.

SKILLPROOF
WE RECORD YOUR PORGRESS

SkillProof is a digital platform that empowers professionals to validate, showcase, and share their expertise through trusted micro-credentials and skill badges.

It provides a unique advantage by creating transparent, verifiable proof of skills, helping both individuals and employers make informed connections.

Market & Beneficiaries

Market Analysis

About the market

Actual situation

The e-learning market is rapidly growing, with millions of people worldwide using online platforms to gain new skills. However, learners often face challenges in tracking and validating their progress across multiple platforms.

Gap definition

- Need for Verified, Portable Micro-Credentials wallet
- Demand for Lifelong Learning and Skills Tracking
- Difficulty for Employers in Identifying Verified Skills

Anticipated situation

SkillProof has the potential to bring clarity, credibility, and organization to the e-learning ecosystem, benefiting both learners and employers in an increasingly skills-focused market.

Market Analysis needs analysis tools

Research

I searched the internet for similar platforms / tools and trends in the field.

Surveys

I used two survey to find out the general trends of the targeted audience.

Market Analysis

Research findings

1. Existing tools:

[accreditable.com](https://www.accreditable.com)

[Mycreds.ca](https://www.mycreds.ca)

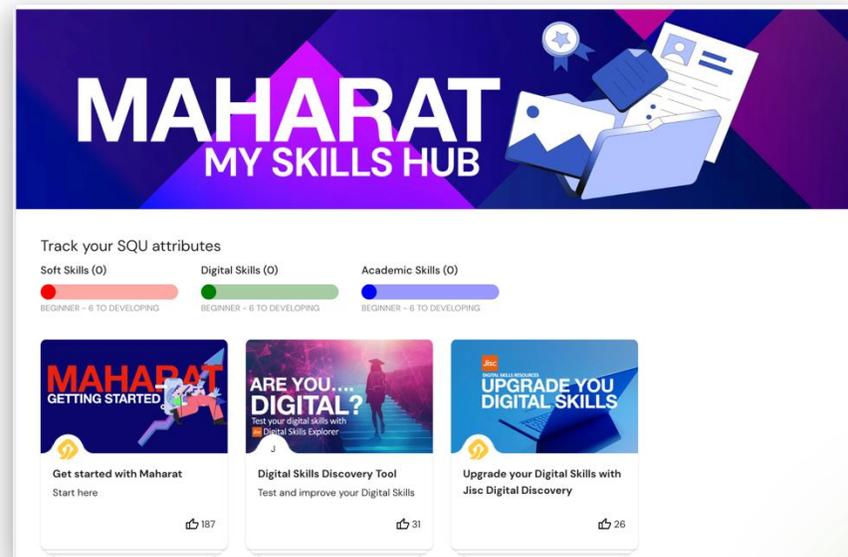

[Credentify](https://www.credentify.eu)

[credentify.eu](https://www.credentify.eu)

Market Analysis

Market Analysis

Research findings

2. Trends in e-learning:

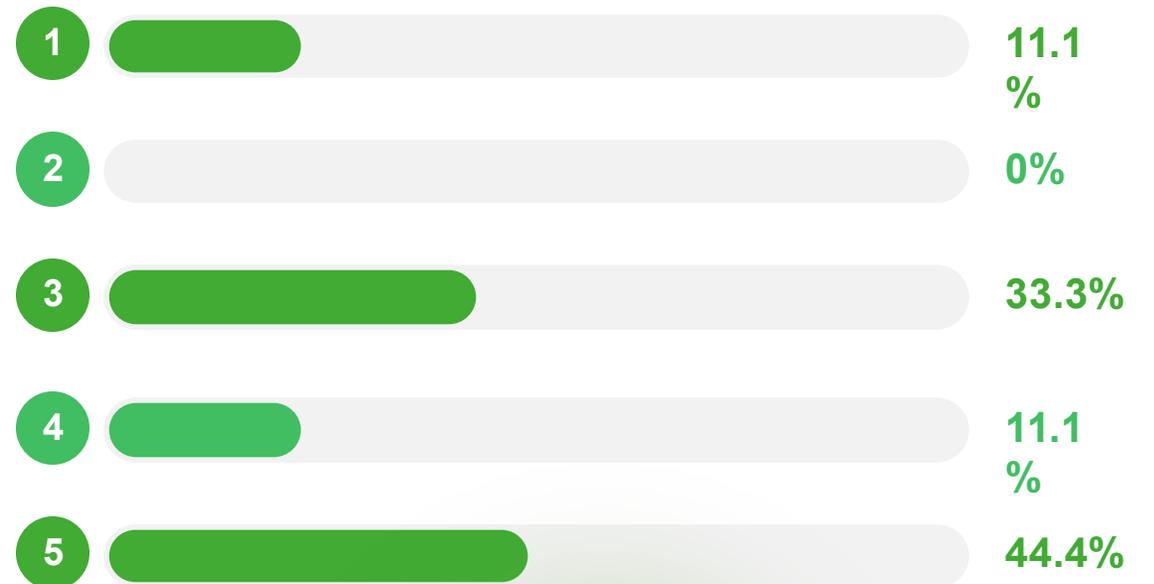

1. Focus on Lifelong Learning and Upskilling
2. Competency-Based Learning
3. Integration of Learning with Employment Platforms

Market Analysis

Survey findings

1. Value of verified badges when applying for jobs or networking:

On a scale of 1-5, how valuable do you find having verified proof of your skills (e.g., badges, endorsements) when applying for jobs or networking?

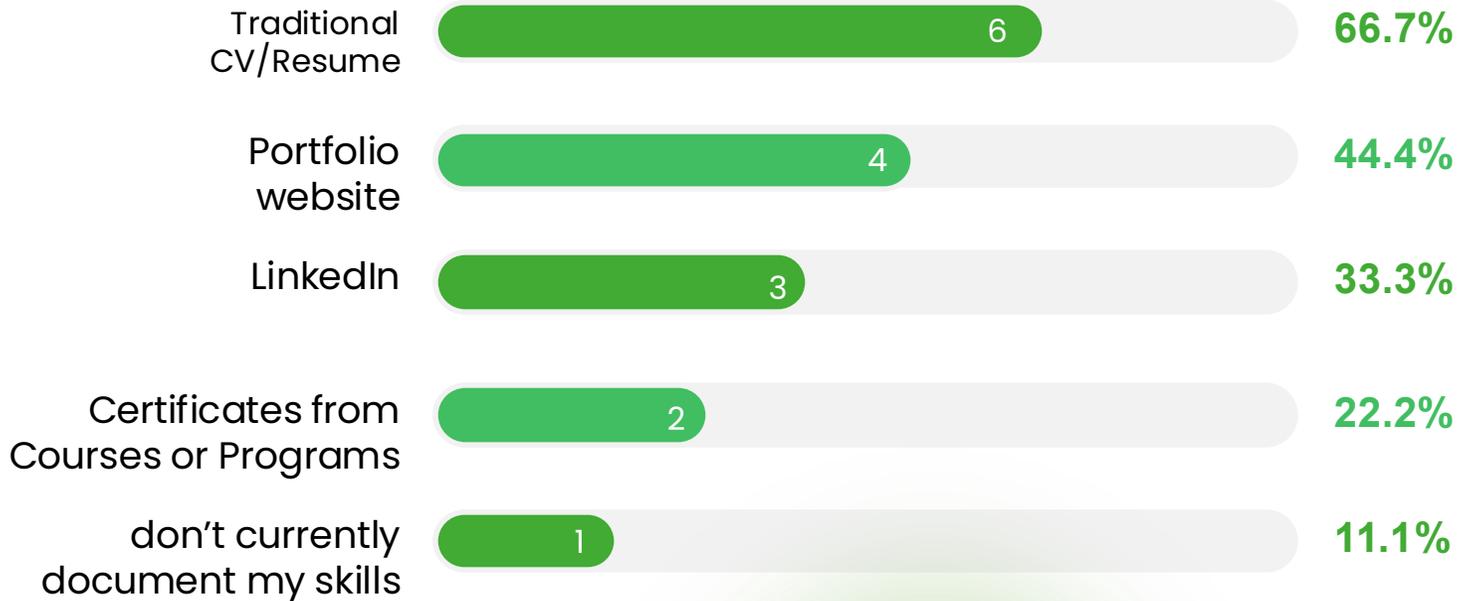

Market Analysis

Survey findings

2. Tools for showcasing skills:

How do you currently document or showcase your professional skills and achievements?

Market Analysis

Survey findings

3. Challenges in showcasing skills:

What challenges do you face when it comes to showcasing your skills and professional growth?

Lack of a unified platform to display achievements

Difficulty in verifying skills to employers

Limited recognition of online certifications by employers

**Professionals and Job
Seekers**

**Freelancers and Gig
Workers**

**Educational
Institutions and
Training Providers**

Targeted Audience

Professional profiles

Presenting and showcasing verified professional skills and projects.

Skill verification & showcasing

Verifying skills through the issuer platform.

Progress tracking

Providing an overview of professional growth and learning paths.

Freelancing & recruitment

Opportunity for employers and individuals to work with professionals in different fields.

Services

Platform Overview

Ecosystem and procedures

Features

Verified Badges

Showcase verified authentic digital badges recognised by trusted organizations.

Skill Tracking

Monitoring skill development and learning progress in real time.

Integration

seamless with existing learning management systems

Personalization

Personalised profiles and learning paths

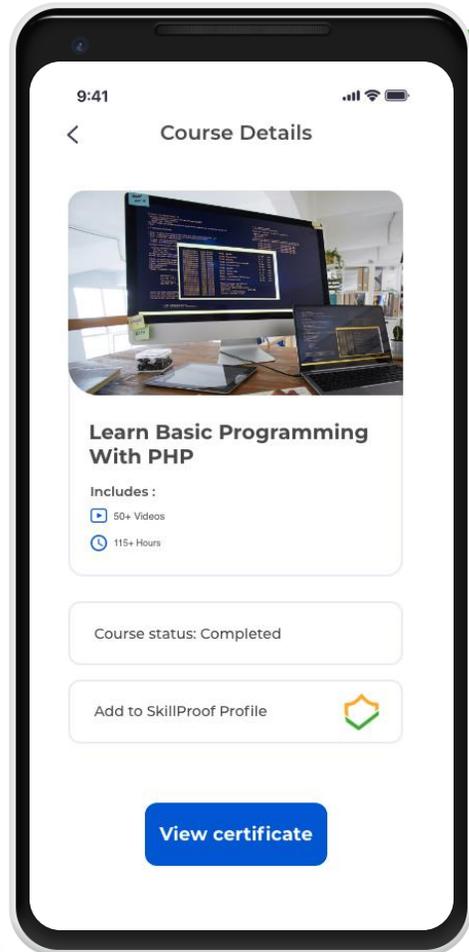

User-Friendliness

A simple and intuitive interface

Gamification

Gamifying awards, achievements, Badges, and

Integration with other systems

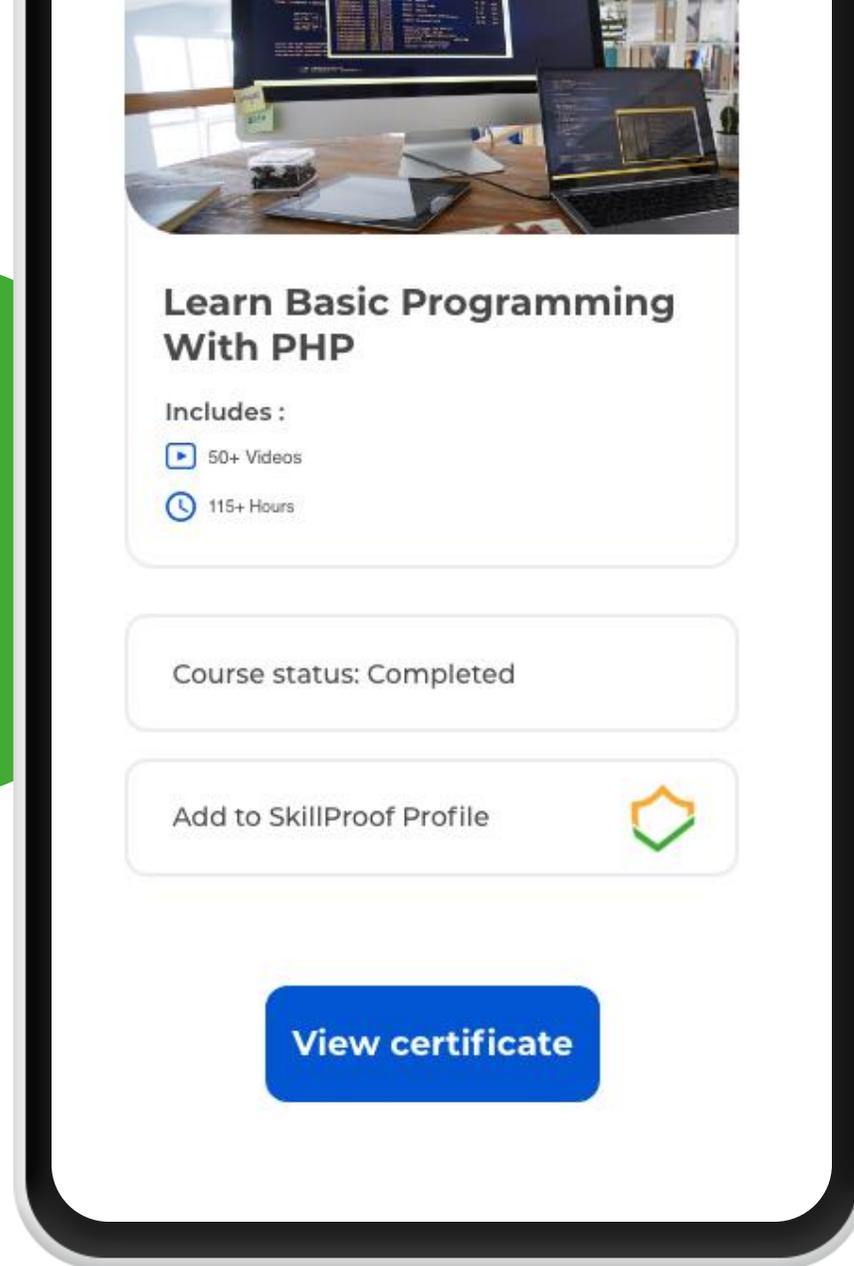

SkillProof will be connected through a **plugin** to systems like:

- E-learning platforms,
- Universities & colleges websites,
- MoL and MoE,
- Recruitment platforms.

Plugin

A software add-on that is installed on a program, application, or website, enhancing its capabilities.

Evaluation and Performance Monitoring

To ensure the ongoing success and improvement of SkillProof, the following evaluation and performance monitoring plans will be implemented.

Platform Usage Analytics

Tracking user engagement and understanding how users interact with the platform.

Metrics to Monitor:

- Number of active users (daily, weekly, monthly).
- Profile creation and updates.
- Time spent on the platform and feature usage.

Evaluation and Performance Monitoring

To ensure the ongoing success and improvement of SkillProof, the following evaluation and performance monitoring plans will be implemented.

User Feedback and Surveys

Gathering insights directly from users to understand their needs, satisfaction, and areas for improvement through surveys.

Examples:

- Regular surveys to measure satisfaction
- Post-support service satisfaction surveys.

Evaluation and Performance Monitoring

To ensure the ongoing success and improvement of SkillProof, the following evaluation and performance monitoring plans will be implemented.

Key Performance Indicators (KPIs)

measure the success of SkillProof in meeting its objectives.

Examples of KPIs:

- Growth in user base.
- Number of badges issued and verified.
- Retention rate: Percentage of users returning to the platform.
- Employer partnerships and job placement success rates.
- Revenue growth and profitability.

Evaluation and Performance Monitoring

To ensure the ongoing success and improvement of SkillProof, the following evaluation and performance monitoring plans will be implemented.

A/B Testing and Experimentation

Used to continuously improve user experience by testing new features and updates.

Purposes of A/B testing:

- Testing homepage design, onboarding flows, and new features.
- Monitoring user responses and adoption rates for changes.

Thanks for Your Attention
